Luminous and spacious apartment in Old Town Palma

Classic beautiful apartment in Palma's old neighbourhood with high ceilings and well-preserved original details such as doors, windows and terracotta floors. The entire building was renovated to a high standard in 2005 and has a beautiful entrance and lift.

The home has a modern kitchen and bathroom, built-in air conditioning with hot and cold air in all rooms and a nice original floor in the large living room and master bedroom. Two of the bedrooms are located towards the back of the building and therefore you sleep undisturbed without the city noise outside. The kitchen, living room and the main bedroom face the mountains to the west and have lovely afternoon sun. From the two French balconies you have a lovely view of the pedestrian street below as well as other beautiful buildings and the cathedral.

Additional information: Air conditioning, heating, elevator. Furniture included.
