Project with modern townhouses in historic Artá

In Artá, a historic town in northeastern Mallorca, this project with new townhouses is taking shape. These townhouses are being built in authentic Mallorcan style, featuring a communal pool, terraces, and south-facing gardens. The homes are spread over two floors and offer spacious terraces, private gardens, and access to the communal area with a pool and beautifully landscaped Mediterranean gardens. The ground floor consists of a bright and airy living area where the living room and dining area merge with a modern, fully equipped kitchen with top-quality Siemens appliances. The living room opens directly onto the terrace and private garden, providing abundant natural light and pleasant warmth throughout the year. This floor also includes a practical guest toilet. On the upper floor, there are three double bedrooms and two full bathrooms, one of which is en suite. The master bedroom also features a walk-in closet and its own terrace. Each home includes a private garage space with both separate and direct access. Handover is scheduled for September 2026.
