Project with modern apartments in Colònia de Sant Jordi

In Colònia de Sant Jordi, 28 modern apartments are being built just 100 metres from the beach. Restaurants, bars and shops are close by, as are some of Mallorca's most beautiful beaches, including Es Trenc and Els Estanys.

The homes are spread across six buildings and can be tailored to your taste. You can choose the materials, colours and details, or opt for a ready-made furniture package. Ground-floor apartments and penthouses also offer the option of adding a private pool or jacuzzi.

The apartments have two or three bedrooms, fully equipped kitchens and spacious living rooms. Large windows let in plenty of natural light, and every home has a terrace. The penthouses also have spacious roof terraces, while the ground-floor apartments have gardens.

All homes have air conditioning and underfloor heating in the bathrooms. Each comes with a parking space and a spacious storage room. Year-round garden and pool maintenance, as well as cleaning services, are also available.

Ideal homes for anyone seeking a peaceful place close to the beach!
