Large plot with project in Orient

In the peaceful Orient valley, just 15 minutes from Alaró, two plots are offered with a combined area of 570,000 m². The first plot has an existing house with a building permit for renovation. The second plot is also included in the purchase and offers the possibility of building another home.

Under the renovation project, the existing house will have six bedrooms, four bathrooms and a guest WC. The proposed home on the second plot could have four bedrooms, four bathrooms, a guest WC and a pool. The architecture draws inspiration from Mallorca's traditional country estates, combining stone walls and exposed wooden beams with modern comfort.

Both homes are planned to face south, with spacious interiors that open onto the landscape and welcome plenty of natural light. This is an opportunity to create two homes to your own taste, surrounded by the mountains of the Serra de Tramuntana. The land also has a natural spring.

Orient	570000 m2	yes
6	5	yes
750 m2 + 1 m2	2.400.000	no
